

Ok helpers

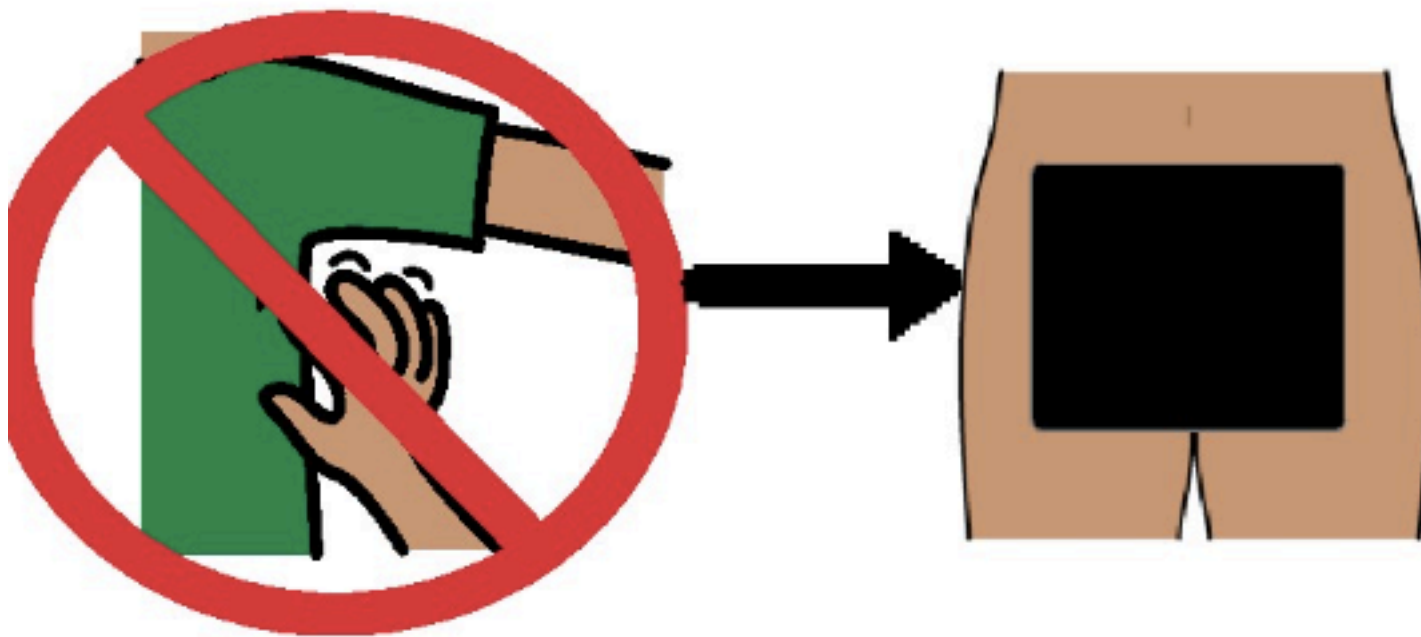

A private helper helps me keep my private parts clean and helps when my private parts are hurting.

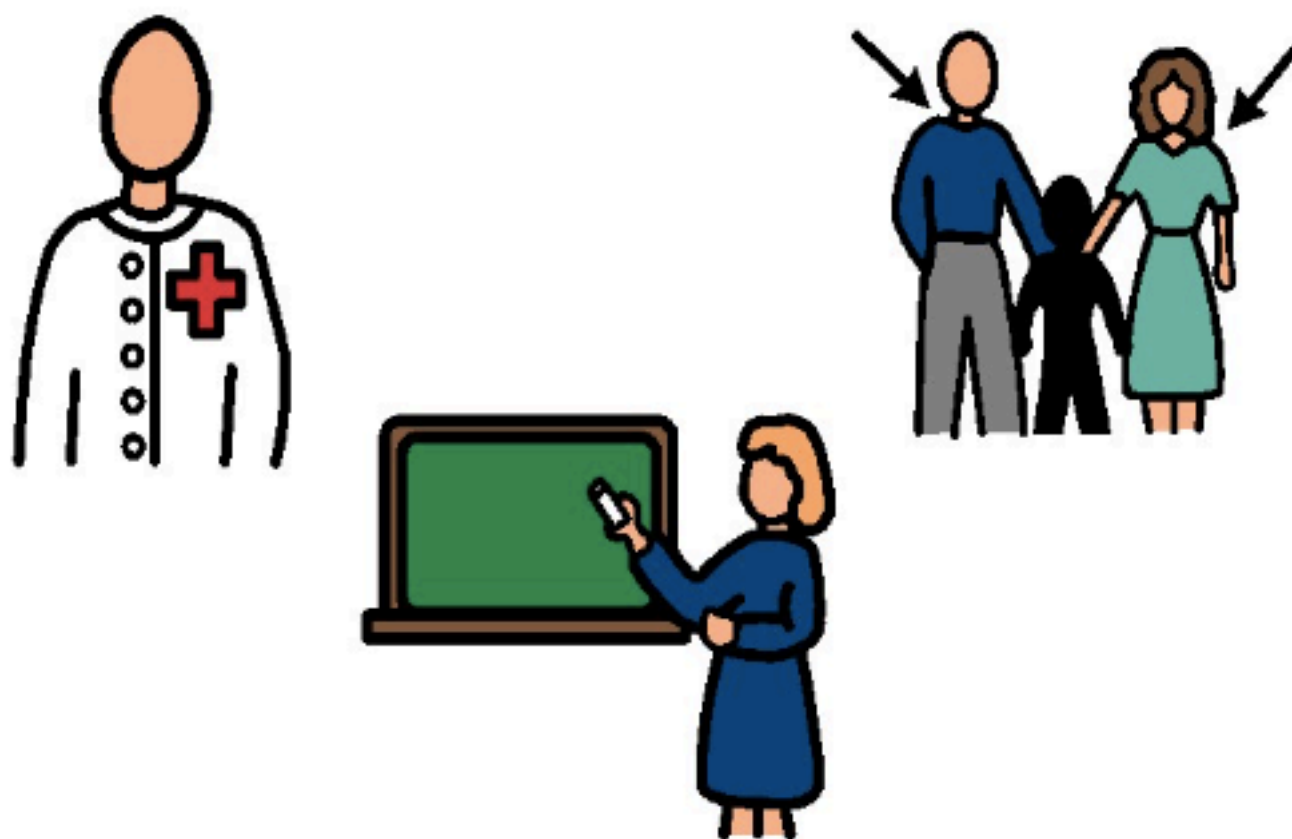

A private helper should only help to clean my private parts.

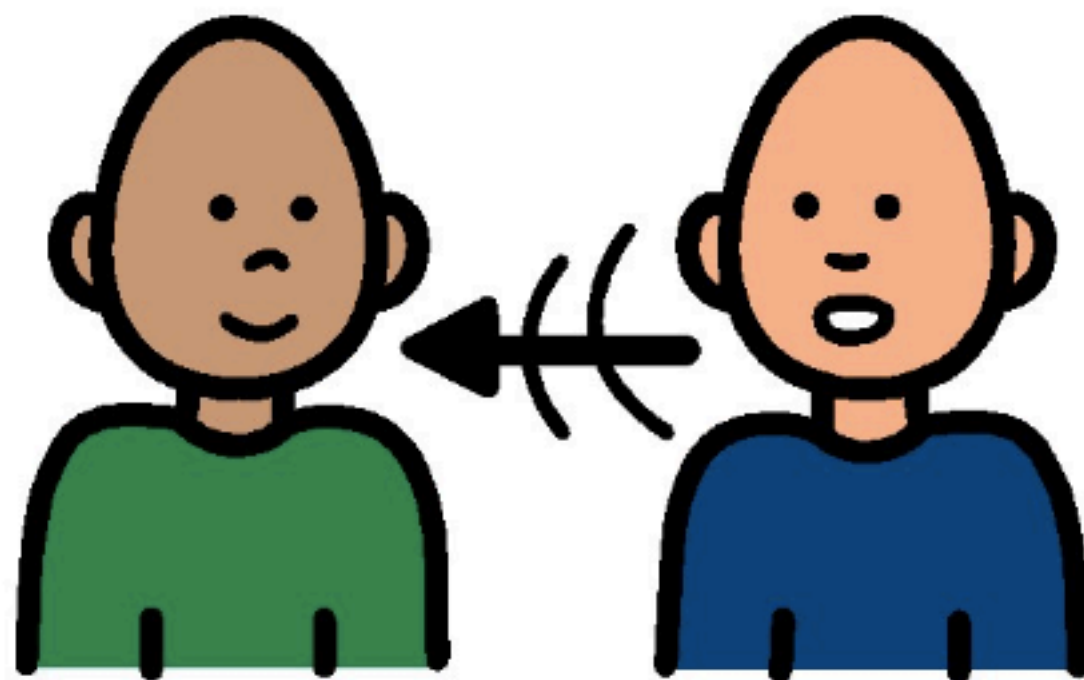

A private helper should always ask if it is okay before helping me clean my private parts

A private helper DOES NOT play
or tickle my private parts.

A private helper might be my parents, a nurse/doctor, my teacher or my support worker.

If someone else touches my private parts
I should let my private helpers know.
